Fratellos Waterfront Restaurant Wins Design Awards

Milwaukee, Wisconsin –Fratellos Waterfront Restaurant, designed by Kahler Slater, in Milwaukee’s Third Ward area has been named one of the Top Projects of 2008 by *Wisconsin Builder* magazine and was honored with a Silver Award from the American Society of Interior Design - Wisconsin Chapter competition. This is the fifth Fratellos location for the Oshkosh-based hospitality operator, the Supple Group. While each restaurant has its own unique design, all have a connection to a waterfront; in this case, the Milwaukee River. Kahler Slater’s design team was given full license to interpret the concept of a waterfront restaurant in an urban location. The design team found its inspiration from wooden boats that once worked the Milwaukee riverfront. The restaurant’s curved walls and paths are reminiscent of waves of water. VJS Construction Services of Pewaukee, Wis. served as the general contractor.

This 8,500 square foot restaurant is located on the main floor of a mixed-use building at 102 North Water Street, conveniently accommodating both street traffic and Riverwalk patrons. Fratellos caters to urban professionals stopping in to conduct business and families out for a moderately priced meal.

“We are honored to have won these awards,” said Jay Supple, CEO of Supple Group. “Congratulations go to the entire team for making this project a tremendous success.”

The project will be featured in the special May issue of the magazine. *Wisconsin Builder* offers in-depth coverage of the construction and design industry, with feature stories highlighting the top projects from across the state and extensive lists showcasing the top performers in the industry. Visit www.supplerestaurantgroup.com/fratellos-mke for more information.

About Supple Group Restaurants
